Welcome to our beginner-friendly card making guide where we'll show you how to create beautiful, personalized cards using pre-printed cards and ephemera packs. Whether you're new to card making or just looking for a quick and easy project, these cards are perfect for you.

By combining the pre-printed cards with ephemera (a variety of printed images, sayings, and decorative elements), you can skip the time-consuming steps of cutting and stamping, and jump straight into the creative part - designing and assembling! These examples will give you ideas for arranging and layering the elements to create eye-catching, heartfelt cards in no time.

With minimal supplies and simple techniques, you'll be able to craft cards for any occasion quickly and easily.

Products Used for These Cards:

- Sunny Springs Cards & Envelopes (#163754)
- Calming Creek Cards & Envelopes (#163753)
