## Instructions:

- Use the large background snowflake die to create a template from the Basic White layer.
- Lay the Basic White background layer on a protected work surface and secure it with washi tape. Place the snowflake template on top and secure it with washi tape as well.
- Place a dollop of embossing paste on an acrylic block, sealed inside a clear envelope (or plastic bag). Add 1-2 drops of Pool Party refill to the paste and mix with a palette knife.
