Instructions for Slide Out Pop-Up Card

- Add Tear & Tape to both sides of the Bottom layer (as shown above)
- Use a Bone Folder to crease the score line at the $\frac{1}{4}$ " score, folding it back, and remove backing from the Tear & Tape
- Add it to the inside of the card on the left side, lining the edge up with the $4 \frac{1}{4}$ " score line
- Remove remaining backing from the Tear & Tape on the Bottom layer, then add the Top layer to the Bottom layer by matching up the score lines and the edges to form a "card".
- Use a ruler and a pencil to mark the top and bottom of the "card" in the remaining scored section of the card base. Add Tear & Tape to the top and bottom of the card base. (Be sure Tear & Tape is only between the pencil mark and the edge of the card base)
- Remove backing from the Tear & Tape and fold on the $8 \frac{1}{2}$ " score line to create the inside side pocket that will hold the "card"
- Slide the "card" in the pocket, crease all score lines with a Bone Folder
