Embossed Watercolor Technique Steps

- Place a paper towel on the worksurface, lay Vellum on the paper towel
- Scribble Stampin' Blends on Vellum Paper.
- Use Stampin' Spritzer with Alcohol and wet the Blends until the ink is all wet.
- Use the paper towel to dab the edges of the Vellum, allow to dry completely. You can use a heat tool to speed up the drying
- Colors will be softer after it dries
